Dear Tom,

Since purchasing Christopher's Cottage in September, our family has already enjoyed many memorable weekends in the house. The architectural details make for a dramatic and beautiful year-round vacation home. We looked at many, many houses before we decided on Christopher's Cottage; the craftsmanship and attention to detail in this home was far superior to any of the properties we saw.

We have had many overnight guests and everyone comments on how solid the house feels. Even with three lively families in the house, it feels quiet, spacious and comfortable. There are spaces to gather as a group and spaces to escape to for quiet time. The floor plan is very conducive to entertaining and yet still feels intimate when only four of us are there.

The kitchen is a delight to use. You can tell that much thought was put into the design. The finishes and appliances are top notch. The master bath is absolutely luxurious.

Thank you for building such a beautiful and functional home.

Sincerely,
Kelly Austin & Scott Hurwitz
